

# You Are Invited to Participate In Our Annual **PHOTO SALON**

at

**The View Gallery  
Vancouver Island University  
Nanaimo, BC  
May 27 – June 14, 2019**

**Photo Salon** is part of a worldwide system of recognized forums to showcase the commitment, achievement and outstanding work of photographers in the region. It is open to club and non-club members on Vancouver Island. A panel of judges adjudicates the digital entries and, if accepted, the photographs are printed, hung and evaluated for 1<sup>st</sup>-, 2<sup>nd</sup> -, and 3<sup>rd</sup> -place recognition. There is also a 'People's Choice' award. Photo Salon is hosted by the Harbour City Photography Club in Nanaimo and is endorsed by the Canadian Association for Photographic Art (CAPA), the prime photography group in Canada.

## **Why Enter?**

- It offers public recognition and significant awards.
- It is a venue to sell your prints without commission.
- It can improve your photography by having to think critically about what to enter.
- It motivates others to excel in their craft and promotes the enjoyment and appreciation of photography in the wider community.

## **Introduction**

The competition categories described below have been established for the following reasons:

- Entrants can see their photographs grouped into categories based on subject matter.
- Competition photos are easier to judge on an objective basis if the subjects are similar and the criteria within a category are consistent.
- When you enter a photo into a specific category, you are asking that your photograph be judged according to the definition of that category.

## **Guidelines for all Categories**

- Post processing is permitted in all categories.
- Information in the category description pertains to the primary subject of the photo.
- Titles are considered a part of the image and may influence a judge either positively or negatively.
- Do not add your name, copyright, watermark or any other identifying text to the digital image or the print itself.

## **Judging Criteria**

All photographs will be judged on how well they (i) portray the subject matter, (ii) display visual interest (tell a story or create an emotion), (iii) illustrate technical expertise (both in camera and post processing), (iv) show an original or personal interpretation of the photographer, and (v) fit the category definition. Judges will not move an image from one category to another.

## Categories

### *Nature*

This category will show our natural world in all its amazing variety – landscapes, seascapes, wildlife, stars, geological formations, weather, botany, and aquatic species. Incidental appearances of man-made objects (fence, trail, pole, etc.) do not disqualify images from this category.

### *Black and White*

Show us your world in black and white! A black and white photograph consists of shades of gray that go from dark (black) to light (white). It is unique because it shies away from accurate reproduction, focusing on other visual effects of the photo such as tone, texture, shape, shadow and contrast. Sepia, a tone added to warm up a black and white image, is permitted. Other monochrome tones, such as red or blue, will not be accepted.

### *Digital Art*

This category will appeal to those who seek to satisfy their creative passions and curiosity through in-camera or post processing techniques that use the photographic medium as an art form. Examples include multiple exposures, light painting, digital painting, collages, composites, and abstracts.

### *Open*

As implied, the subject matter is wide open and may include such things as portraiture, cityscapes, still life, architecture, street photography, sports, and other subjects that *do not* fit the Nature, Black and White or Digital Art categories.
